and prospects are not distinguished
on maps.

MINERAL RESOURCE ZONE CATEGORIES.

- MRZ-1 Areas where available geologic information indicates significant mineral resources.
- MRZ-2a Areas underlain by mineral deposits where geologic information indicates a light amount of indicated resources are present.
- MRZ-2b Areas underlain by mineral deposits where geologic information indicates that significant inferred resources are present.
- MRZ-2a Areas containing known mineral occurrences of undetermined mineral resource significance.
- MRZ-3b Areas containing inferred mineral occurrences of undetermined mineral resource significance.
- MRZ-4 Areas of no known mineral occurrences where geologic information does not rule out either the presence or absence of significant mineral resources.
